

Letter of Reference
Stacy Padula – Tutor

January 23, 2016

To whom it may concern,

Stacy Padula has tutored my daughter for the past 4 years in all subjects. Stacy is an exceptional tutor and it is with great pleasure that I write this letter of reference.

Stacy is extraordinarily smart and always amazes me as to her knowledge and understanding across all subjects including Physics, Chemistry, English and Math. She is a true educator, understands the unique needs of my daughter and is flexible in her teaching methods.

Math was a difficult subject for my daughter as she lacked a solid foundation for the basics, lost her self-confidence for learning and became very frustrated when trying to understand more complex concepts. Stacy was able to rebuild her confidence, improve her study habits and reteach the basics while helping to move her grade up by two levels. My daughter frequently comments on how much better she understands the material after meeting with Stacy.

Stacy is extremely passionate about her work and has built a great rapport with my daughter. Stacy has worked with her to manage through a very demanding school workload, prioritize on what's most important and improve her desire to learn and take on more complex subjects. Stacy is also a gifted writer and has immensely improved my daughter's writing skills.

I believe any student would significantly benefit from their experience with Stacy. She has a love of learning and strong dedication to helping kids grow and learn to their fullest potential. Stacy is highly reliable and always professional.

Sincerely,

Deb Harvey
